

Saffron Insurance Acquires Continuum Insurance

12 March 2018 Saffron Insurance, one of Broker Network's Partners in the East of England, has today acquired independent insurance broker and Network member, Continuum Insurance Brokers.

Based in Hertford, Continuum was established in 1966 and focuses heavily on business insurance. All 15 employees including the three directors; Bernard Murphy, Neil Brady and Clive Mann will remain working from their current office.

Commenting on the acquisition, David Beswick, Saffron's Managing Director said: "I'm delighted to be announcing this so soon after the acquisition of Grove Financial Management Ltd. We've got to know Bernard Murphy and his senior team well now and I have the highest regard for what they have achieved.

"We look to work with brokers that have natural synergies with Saffron Insurance as well as complementing our existing client base and product offering. Continuum also sees our footprint expand further across the East of England as part of our plans for growth. Their values and customer-centered focus fits our own ethos of exceeding client expectations and we are delighted to welcome them into the business."

This acquisition is the company's second since becoming a Broker Network Partner in January 2018.
